

**Your team knows
your factory.
Give them the
power to improve it.**

With Pico's Manufacturing Execution System, you can quickly increase throughput and decrease daily firefighting.

Set up in a day. Connect any device. Make changes in 5 minutes or less. No consultants necessary.

Pico MES gives your factory the digital advantage it needs to compete.

CONTROL

Improve speed and reduce errors

With Pico's extensive Device Library, we can use ANY device to error proof EVERY process.

INSIGHT

Increase team productivity

Finally, I can see what my team is doing in real-time so I can give them the support they really need.

INFLUENCE

Have a say in the production process

Collaborating with my team allows me to get better at what I do ... without feeling like a robot.

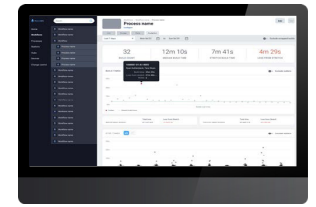

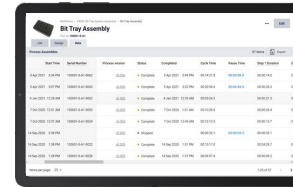

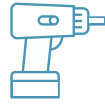

CONFIDENCE

Make data-driven decisions

Forget opinions, I finally have the numbers I need I to make the right decisions and compete effectively.

Simple changes add up to big gains

DEFINE

Engineers set up rules and guidelines for any process on the shop floor using a code-free drag-and-drop device library.

Work Instruction Generator
Workflow Planning Tools
ERP/MRP Integration

GUIDE

Operators receive up-to-date instructions fully integrated into their stations, reducing stress through process error proofing.

Seamless Operator Instructions
Integrated Error Proofing
Collaboration Tools

COACH

Supervisors are armed with live factory data to help them react to problems and stay on top of production.

Live Factory Floor View
Remote Monitoring
Team Training Matrix

IMPROVE

Everyone collaborates to continuously improve their processes using integrated analysis tools.

Pre-built Dashboards
15 Minute Analysis Tools
Inflection Point Generator

“For the first time in my career, I don’t feel held hostage by my MES.”

Steve Wishau
Head of Operations
Caban Systems Intelligent Energy Storage

EASY

If you can use a smartphone, you can set up and use Pico.

FLEXIBLE

Try it at a station, prove it across a line, deploy it everywhere.

SCALABLE

Use technology you’ve always wanted or didn’t even know existed.
